MEMORANDUM FOR: Chief, Mobilization and Military Personnel Division

SUBJECT : Request for Clearances for Military Detailees

2. In order to accomplish a smooth transfer of acceptable personnel from the current strength to the new CIA unit, a list of possible detailees has been submitted by the field. Attached hereto are statements of personnel history on the following nominations:

3. It is requested that the steps be taken to have the Office of Security commence initial processing of these records in order to expedite clearances required for detailed status. The investigations so conducted should not reveal Agency interest. For your information, the subjects above have not been informed of this check in view of the situation outlined in paragraph one. In view of the almost certain transfer of personnel and assets, an instant start on clearances is highly desirable and in truth, necessary, if we are to maintain a capability during the transition period.

4. It is expected that further Personal History Statements will be forthcoming. It is requested that these clearances be expedited.

SIGNED
